PROBLEM

Flight delays and cancellations are inconvenient, disruptive, stressful, and costly.

GOAL

Identify unique patterns among airlines and airports to enhance operational efficiency, improve travel experiences, and mitigate economic losses.

Business Description

01

Analyze delays to discern seasonal trends and variations

Offer valuable insights into the factors affecting flight schedules

02

Develop predictive models to estimate delay durations

Empower stakeholders with proactive strategies to mitigate risks

03

Provide passengers with travel time recommendations

Facilitate informed decisions to minimize disruptions' impact on plans

Which cities experienced the highest percentage of delayed flights?

Top 10 Cities with the Most Delayed Flights

OriginCityName	Count	Delayed Count	Delay Proportion
Youngstown/Warren, OH	2	2	100.00%
Cold Bay, AK	262	158	60.31%
Ogden, UT	460	273	59.35%
Pago Pago, TT	299	163	54.52%
Adak Island, AK	452	241	53.32%
Dallas, TX	292,538	149,560	51.12%
Stockton, CA	3,521	1,741	49.45%
Unalaska, AK	1,392	681	48.92%
Hyannis, MA	379	184	48.55%
Wilmington, DE	165	79	47.88%

What happened in Dallas?

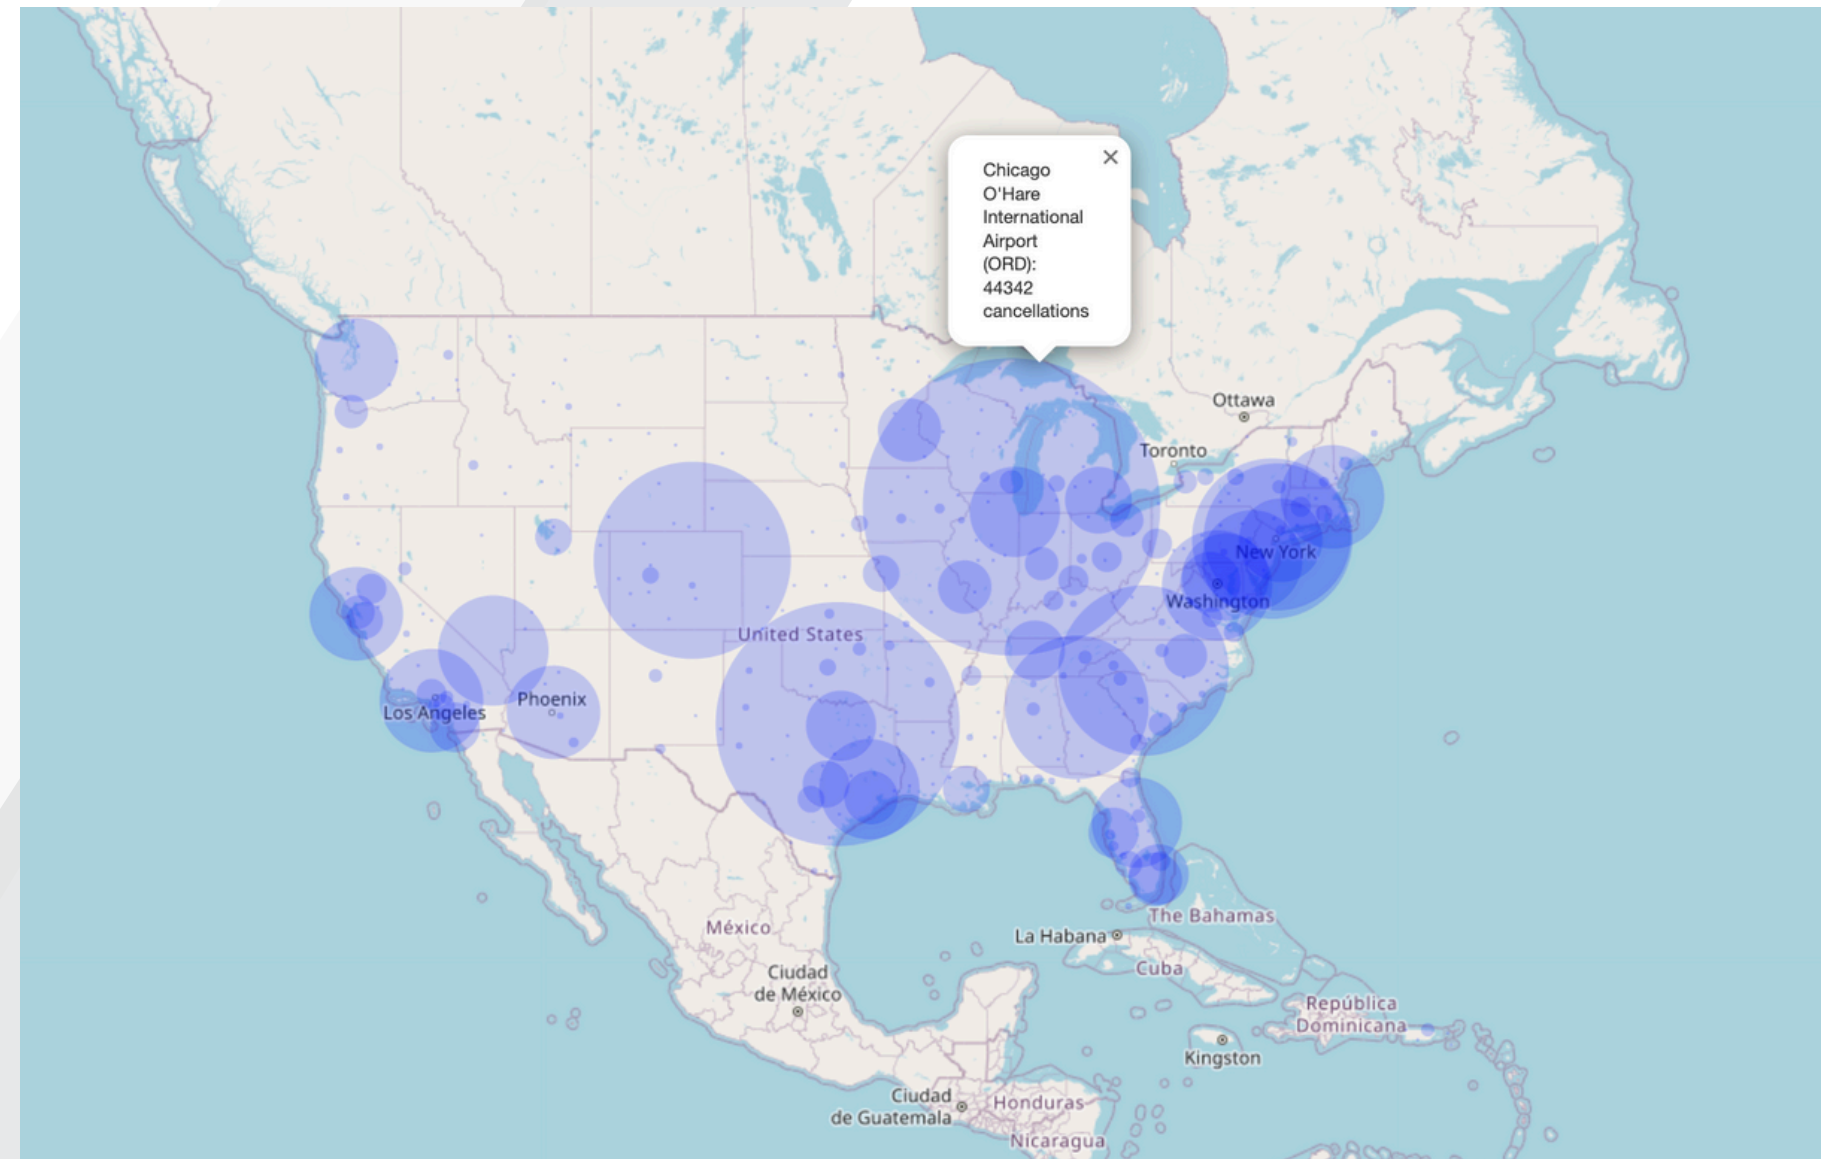

Origin Airline		Total_delay	Flight_count	Average_delay
DAL	SkyWest Airlines Inc.	100,061.0	2,286	43.77
DAL	Delta Air Lines Inc.	72,566.0	1,830	39.65
DAL	Alaska Airlines Inc.	32,668.0	850	38.43
DAL	Endeavor Air Inc.	787.0	21	37.48
DAL	Virgin America	5,877.0	196	29.98
DFW	GoJet Airlines, LLC	7,456.0	80	93.20
DFW	Compass Airlines	27,630.0	305	90.59
DFW	Endeavor Air Inc.	72,875.0	1,074	67.85
DFW	Republic Airlines	103,899.0	1,591	65.30
DFW	ExpressJet Airlines LLC	99,216.0	1,556	63.76

Airports most prone to cancellations

Top 3 Airports with the Most Cancelled Flights

Origin	CancelledFlights
ORD	44342
DFW	36698
DEN	29676

- Flight cancellations across the USA are unevenly distributed, with a higher concentration in the eastern regions

Proportion of Airlines at the busiest airports

Top 5 Popular Locations with Top Operating Flights

- The top airlines that fly the most are mainly international.
- United Airlines is more common in northern cities while American Airlines are more popular in the south.

Proportion of major airlines at 3 Popular International Airports

- For JFK, JetBlue Airways and Delta Airlines handle more than half of all flights, making them the biggest players there.

- For LAX, this airport has a mix of many airlines, with no single airline having more than 20% of the flights.

- For SFO, Similar to JFK, two airlines at San Francisco airport control nearly 60% of the flights.

SEAT

2A

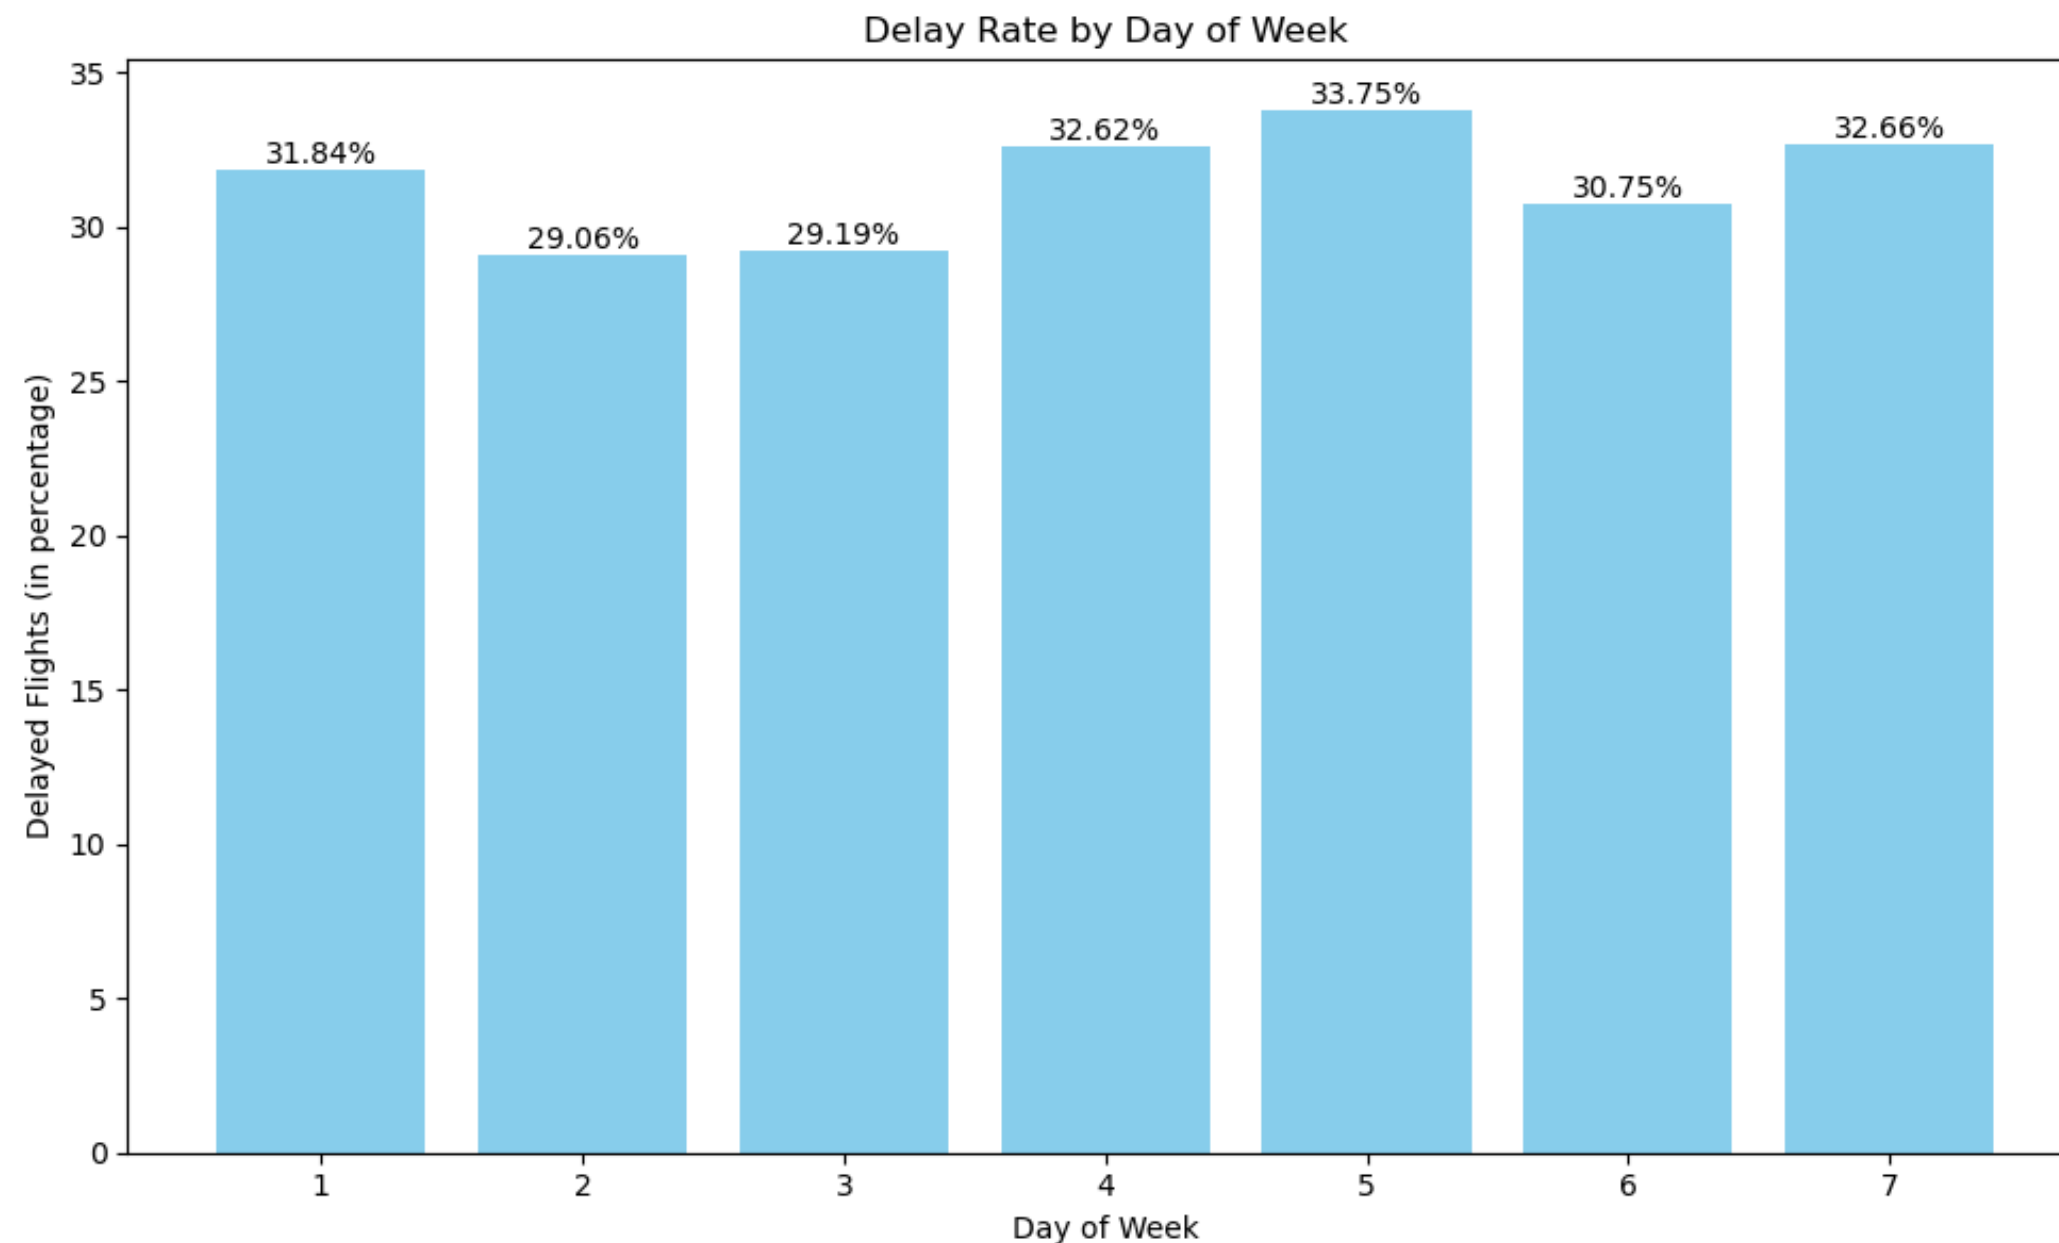

Delay Time by Hour of Day

- Rising trend throughout a day
- Evening and night periods experience the longest delays
- Peak at about 19 minutes on average at around 7 PM

Delay Rate by Day of Week

+-----+-----+	
DayType	delay_proportion
+-----+-----+	
Weekday	31.20
Weekend	31.63
+-----+-----+	

- No obvious patterns based on weekdays or weekends.
- Peak on Friday
- The rise in travel toward weekends intensify delays

Delay & Cancellation Rate by Month

Delays

Delay Rate by Month

- Flight delays have a seasonal pattern
- Higher delay rates during the summer months

Cancellation

Cancellation Rate by Month

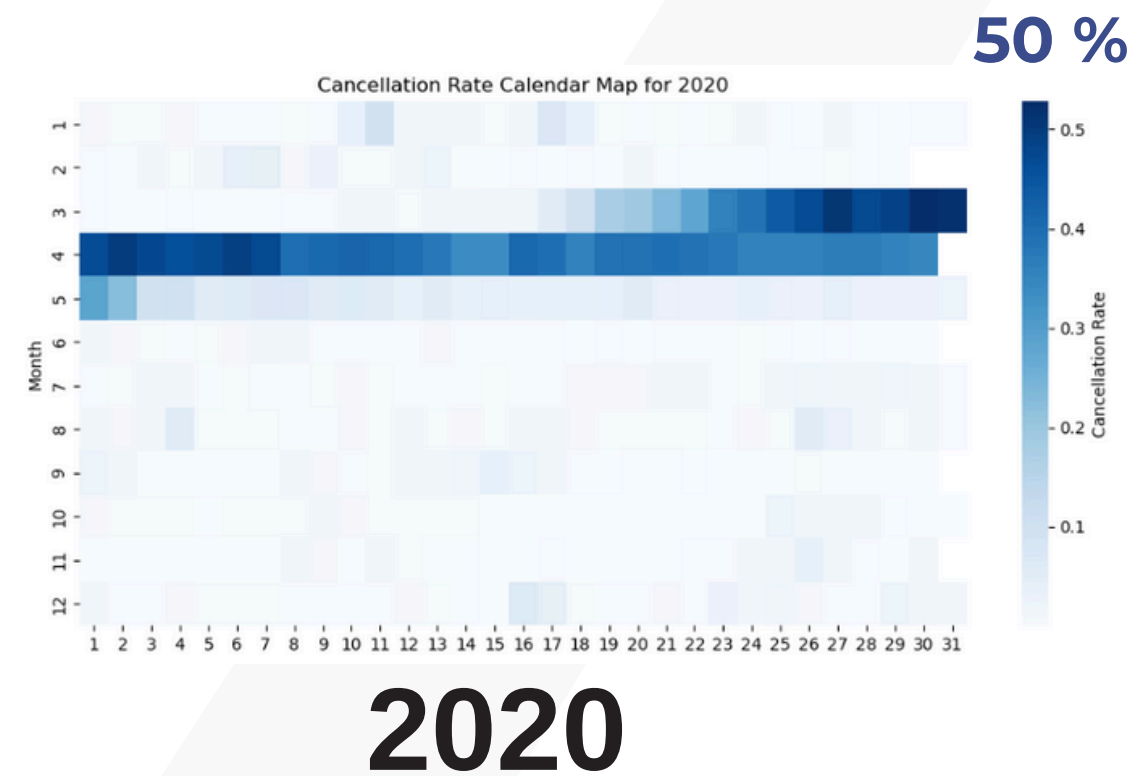

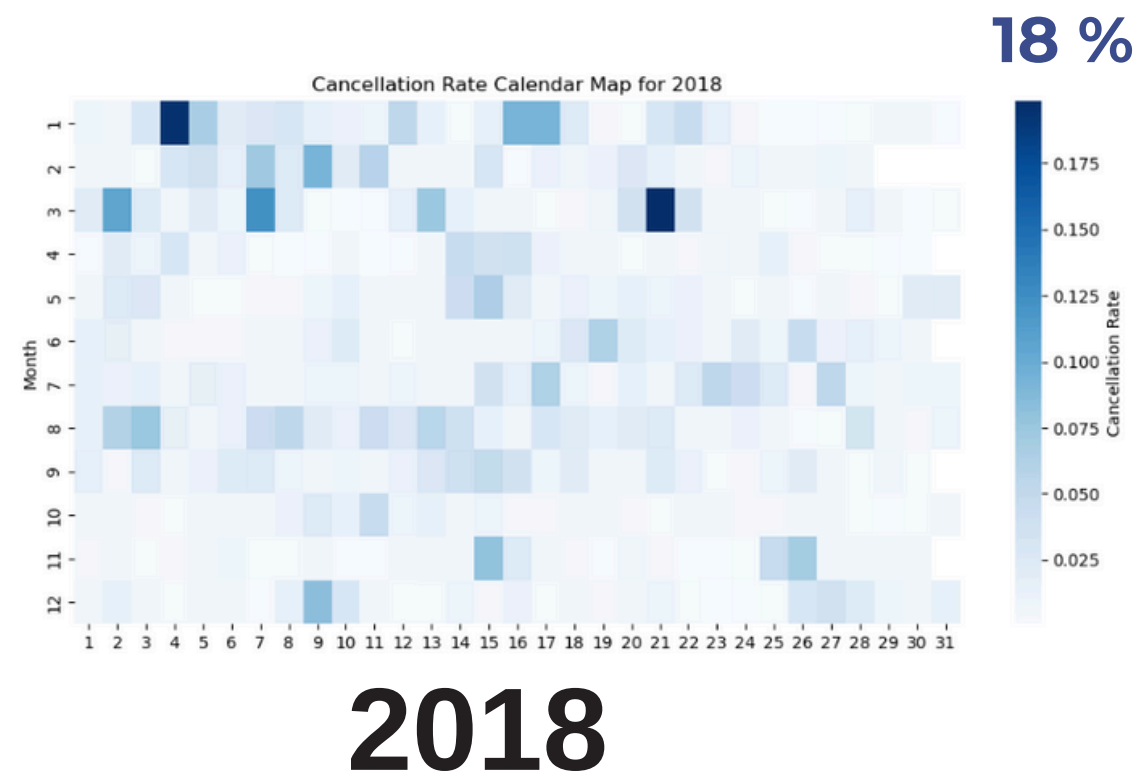

- Higher cancellation rates in the winter and early spring months
- Cancellation rates shoot up in the months of March and April

Average Daily Cancellation Rates over 5 Years

- The most cancellations in March and April

Average Daily Cancellation Rates for each year

Prediction Problem

TARGET: Flight Delay

Upto 15 minutes | 15 - 30 minutes |
30 - 60 minutes | More than 1 hour

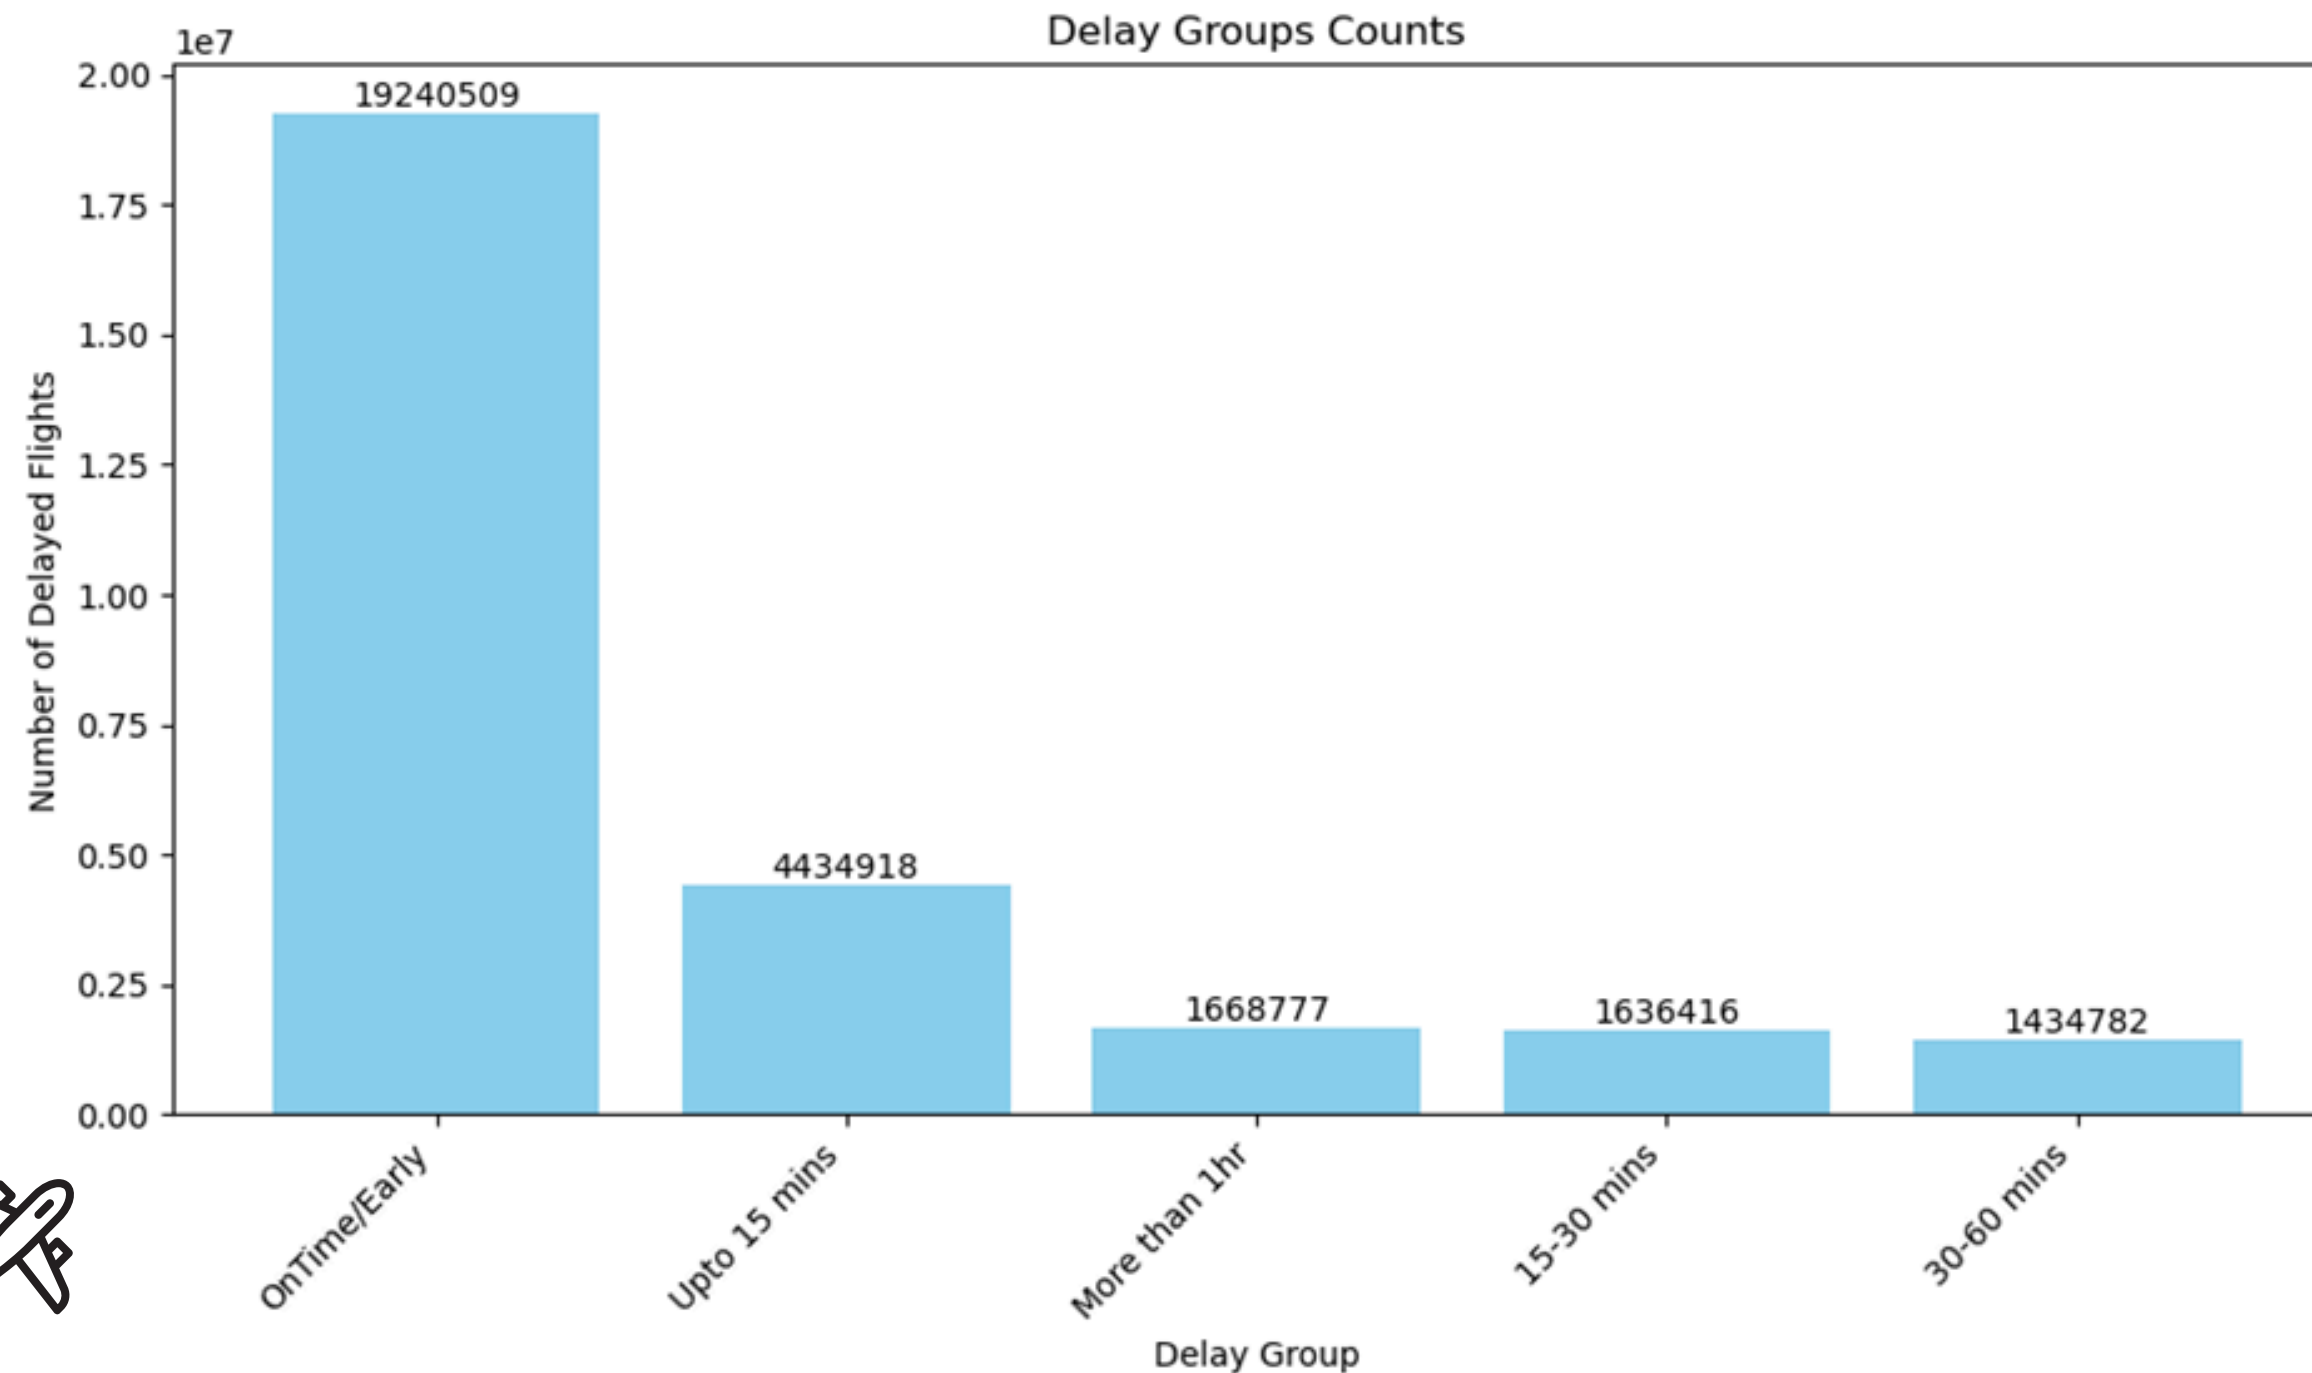

FEATURES

Origin Airport | Destination Airport |
Airtime | Time of Day | Day of Week

Distribution of Delay Categories

Insights

- Imbalanced groups
- Focusing on delays
- Predicting delay groups

Comparing Classification Models

MODELS	ACCURACY	PRECISION	RECALL	F1 SCORE
LOGISTIC REGRESSION	0.50	0.53	0.50	0.38
DECISION TREE	0.49	0.32	0.49	0.36
RANDOM FOREST	0.48	0.23	0.48	0.31

Logistic Regression emerges as the best base model with an accuracy of 50% in predicting each delay category.

Logistic Regression: Feature Importance

Upto 15 minutes flight delay

Important features: Youngstown-Warren Regional Airport, Ohio | Rota International Airport, Rota Island | Devils Lake Regional Airport, North Dakota

Logistic Regression: Feature Importance

15 - 30 minutes flight delay

Important features: Youngstown-Warren Regional Airport, Ohio | Rota International Airport, Rota Island | Elko Regional Airport, Nevada

Logistic Regression: Feature Importance

30 - 60 minutes flight delay

Important features: Youngstown-Warren Regional Airport, Ohio | Rota International Airport, Rota Island | Wilmington Airport (Delaware)

Logistic Regression: Feature Importance

More than 1 hour flight delay

Important features: Youngstown-Warren Regional Airport, Ohio | Rota International Airport, Rota Island | Lanai Airport, Hawaii | Sitka Rocky Gutierrez Airport, Japonski Island | **Time of Day (Morning)**

Logistic Regression: Hyperparameter Tuning

MODELS	ACCURACY	PRECISION	RECALL	F1 SCORE
INITIAL MODEL	0.50	0.53	0.50	0.38
TUNED MODEL	0.49	0.36	0.49	0.37
